## OBJECTIVE

Recent computer science graduate with a solid foundation in web development, including proficiency in React.js, Node.js and JavaScript. Eager to contribute to a dynamic team by building and maintaining high-quality, user-friendly websites. Seeking an entry-level position where I can apply my technical skills and passion for innovation to drive impactful web solutions.

---

## PROJECTS

**Anime.com (MERN Stack Project) Link:** <https://anime-com-static.onrender.com>

- Anime.com is a dynamic, modern, and responsive platform built for anime enthusiasts. Developed using the MERN stack (MongoDB, Express.js, React.js, and Node.js)
- The front-end utilizes React.js and Tailwind CSS for a fast, visually appealing interface, while the back-end is powered by Express.js, with MongoDB managing the database.
- Users can explore various types of anime, from new releases to timeless classics, accessing detailed information such as descriptions, genres, release dates, and user ratings. They can also watch trailers directly on the platform

**Furstore (React.js Project) Link:** <https://furstore-gojo.vercel.app>

- Furstore is a modern furniture shopping website created specifically for a particular furniture store, designed to facilitate online purchases of their products.
- Users can easily explore multiple products, complete with detailed descriptions, images, and pricing information.
- The website features a convenient shopping cart functionality, enabling users to add items they wish to purchase and proceed to checkout seamlessly. Customers can choose to "Buy Now," making the purchasing process quick and efficient.

---

## TECHNICAL SKILLS

**Front End:** HTML,CSS, Tailwind-css , Javascript, React JS

**BackEnd:** Node JS,Express JS.

**Database:** MongoDB.

**IDE:** VS Code

---

## EDUCATION
